

WHAT'S INCLUDED IN OUR SERVICE

Fabric & Blind Surface Clean

Careful cleaning of the blind material using a specialized outdoor blind cleaning solution. Designed to safely remove dirt, salt residue, pollen and environmental buildup.

Track & Channel Deep Clean

Edge tracks are cleaned to remove insects, cobwebs, debris, and grime that may affect the smooth movement of your blinds.

Blind Operation Tune-Up

Inspection and adjustment of blind tension and alignment to ensure smooth reliable functionality.

Powder-Coated Frame Care

Cleaning of aluminum frames and channels, to maintain their finish and help protect against corrosion and wear.

We recommend servicing every 6-12 months in Northland conditions
